

FITTINGS ROUNDER

The Fittings Rounder is an invaluable machine used to round both the inside and outside parts of air duct elbows. Its sliding rollers allow pre-seamed parts to be rounded without closing their seams.

Technical Details

Power	:	4 KW
Voltage-Frequency	:	220/2300 VAC 50-60Hz/1P+N+PE
Current	:	18A
Lubrication	:	Manual
Control Type	:	Dual Foot Pedal (Back and Forward)
Working Speed	:	10 m/min
Minimum Sheet Width	:	120mm
Maximum Sheet Width	:	1500mm
Minimum Radius	:	200mm
Seam Type	:	Snaplock, Pittsburgh
Sheet Thickness	:	0,5mm - 1,2mm
Machine Dimensions	:	2300mm x 650mm x 1100mm
Weight	:	450 kg
